

Preferred Drug List

This **Preferred Drug List** for members of the HealthSelectSM of Texas prescription drug program is a summary of your prescription drug coverage. Brand-name products are in CAPS, branded generics are in upper- and lowercase *Italics*, and generics are in lowercase *italics*. This is not an all-inclusive list and is subject to change. Visit www.caremark.com/ers to check coverage and copay¹ information for a specific medication.

LOWER COSTS WITH GENERIC MEDICATIONS

As a way to help lower your out-of-pocket costs, ask your doctor to authorize generic medications when medically appropriate. Take this list along when you or a covered family member sees a doctor.

Please note:

- Your specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document. Products recently approved by the U.S. Food and Drug Administration (FDA) may not be covered upon release to the market.
- For specific information regarding your prescription benefit coverage and copay information, please visit www.caremark.com/ers or contact a Caremark Customer Care representative at (888) 886-8490.
- Caremark may contact your doctor after receiving your prescription to request consideration of a generic equivalent. This may result in your doctor prescribing, when medically appropriate, a generic equivalent in place of your original prescription.
- This drug list is a summary of your prescription drug coverage. It is not all-inclusive and does not guarantee coverage.
- In most instances, a brand-name drug for which a generic product becomes available will be designated as a non-preferred option upon release of the generic product to the market.

You may be responsible for the full cost of certain non-formulary products that are removed from coverage. Please check with your plan sponsor for more information.

FOR YOUR INFORMATION: New-to-market products and new variations of products already in the marketplace will not be added to the formulary until the product has been evaluated, determined to be clinically appropriate and cost-effective, and approved by the Caremark Pharmacy and Therapeutics Committee (or other appropriate reviewing body). In most instances, a brand-name drug for which a generic product becomes available will be designated as a non-preferred option upon release of the generic product to the market. Specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed.

* The preferred options in this list are a broad representation within therapeutic categories of available treatment options and do not necessarily represent clinical equivalency.

§ Generics are available in this class and should be considered the first line of prescribing.

¹ Copayment, copay or coinsurance means the amount a member pays for a prescription after a per-person, per calendar year deductible.

² Listing does not include generic CARDIZEM LA.

³ Higher copayments may apply depending on the member's prescription benefit plan. Log in to www.caremark.com/ers to find the copayment under a specific plan.

⁴ ONETOUCH brand test strips are the only preferred options.

⁵ Listing reflects the authorized generics for TESTIM and VOGELXO.

Plan member privacy is important to us. Our employees are trained regarding the appropriate way to handle members' private health information.

This document contains references to brand-name prescription drugs that are trademarks or registered trademarks of pharmaceutical manufacturers not affiliated with Caremark. The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

Listed products are for informational purposes only and are not intended to replace the clinical judgment of the prescriber.

The information contained in this document is proprietary. The information may not be copied in whole or in part without written permission.
