[EAEU Launches Anti-Dumping Probe into Chinese Graphite Electrode Imports](#)

Updated on : Mar 06, 2025 11:40 am

Synopsis: The Eurasian Economic Union has initiated an anti-dumping investigation into imports of graphite electrodes from China. The probe focuses on electrodes with a specific diameter range used in furnaces. This investigation comes after previous anti-dumping duties imposed on smaller electrodes from China and aims to address concerns about unfair trade practices.

[TMK Reports Decline in 2024 Financials Amid Market Challenges & Lower Demand](#)

Updated on : Mar 06, 2025 11:38 am

Synopsis: Russian steel pipe producer TMK has released its financial results for the full year of 2024, showing a decline in both revenues and profits. The company's sales revenue dropped by 2.2%, while its adjusted EBITDA saw a sharp decrease of nearly 29%. Factors such as high interest rates, OPEC+ production restrictions, and the lack of large pipeline projects contributed to the fall in demand for its pipe products.

[India's Small Exporters Seek Relief from US Steel & Aluminium Tariffs to Maintain Competitive Edge](#)

Updated on : Mar 06, 2025 11:37 am

Synopsis: Indian small engineering exporters are urging the government to reduce import duties on select US goods in response to President Donald Trump's impending 25% tariffs on steel and aluminium. These tariffs, set to take effect on March 12, 2025, have raised concerns about rising costs and declining orders. Exporters are seeking a favorable trade deal with the U.S., emphasizing the need for tariff reductions to protect their competitive standing.
